

To Whom It May Concern:

I'm a member of Alcoholics Anonymous. As a member of this fellowship, it's my responsibility to reach out to you.

Alcoholics Anonymous has had to undergo the drastic change of having most of our meeting rooms close until this pandemic that is upon us has passed. A lot of our meetings have moved temporarily to on-line meetings. We are asking that you post this in an area where all your patients can view this document.

Right now, our Area website, along with a few other websites are being stocked daily with new on-line meetings where new members can go to find the vital message of AA. This message is needed when an alcoholic leaves treatment and has nowhere else to turn. As a member myself, I can't imagine coming out of a facility and not finding a meeting for me to attend. This must be a frightening thing to go through.

Here are a few websites that have a list of on-line meetings where newcomers can look to find a virtual meeting:

wpaarea60.org/alerts (Western PA Area)

pghaa.org (Pittsburgh)

aareriepa.org (Erie)

Should you be a person who can get this document displayed inside of a County Jail or that of state prison, we of Alcoholics Anonymous would greatly appreciate your kindness in doing so.

This new reality of having most of our meetings on-line is something all the Fellowship of Alcoholics Anonymous is still adjusting to. Hopefully, this situation will pass quickly.

Thank you for your patience in this matter.

Sincerely,

An Alcoholics Anonymous Member.
